

NG125 / NG150

Gas Burner

2083kW - 3924kW

NG125/150 Gas Burner features:

- Energy saving and compatible with environmental requirements
- Quiet in operation
- Reliable and trouble-free
- Designed and approved in accordance with the European Standard EN 676
- Industry standard components easily available
- 2-stage or fully modulating operation (modulation optional extra)
- Prewired control panel and simple plug-in gas train facilitates the installation
- Fully closing air damper
- Fuel: Natural Gas or LPG (Town's Gas and Biogas on request)
- Optional extras
 - Air inlet silencer
 - Separate water level control (AOTC) panel
- All kW ratings are nett CV
